

INSTITUTION SAMPLE REPORT

The information contained in this report, together with any attachments, is for the sole use of the **Institution Name** and its intended recipient(s) and may contain confidential and privileged information. The receipt and use of this report is governed by the terms of the Institutional Agreement entered into between **Institution Name** and the American College of Cardiology Foundation (the "Agreement"). Any unauthorized review, use, disclosure, or distribution, or any review, use, disclosure, or distribution that is not in compliance with the terms of the Agreement, is strictly prohibited.

Overall Summary

This report provides an overview of your institution's performance on the total Certified Cardiovascular Knowledge Exam ("CCKE"), as well as on certain areas of content measured by the CCKE. Content areas contributing to less than 6% of the total CCKE are omitted due to an insufficient number of items for reporting. Data are also provided in the table below to help you compare the overall performance of NPs and PAs in your institution with that of NPs and PAs in all other institutions. The performance of individual NPs and PAs is not included in this report, and the institution shall not attempt to determine individual scores from this report.

The *Total Test Performance* section below presents the total test mean scaled scores and mean percent correct attained by NPs and PAs in your institution and the NPs and PAs in all institutions for this CCKE administration. Scaled scores are such that the score distribution of all examinees has a mean of 500 and a standard deviation (SD) of 100. The mean percent correct is the percentage of correct items for the total CCKE.

The *Medical Content Category Performance* section presents the mean percent correct for each content area attained by NPs and PAs in your institution and the NPs and PAs in all institutions for this CCKE administration.

	Your Institution (N=6)	All Other Institutions (N=42)
Total Test Performance		
Mean Scaled Scores	571	547
Mean Percent Correct	64	60
Medical Content Category (Mean Percent Correct)		
Acute Coronary Syndromes	71	58
Ambulatory and Consultative Cardiology Care	74	52
Cardiac Arrhythmias and Electrophysiology	70	48
Cardiovascular Disease Prevention	57	62
Core Competencies	40	81
Heart Failure	63	49
Stable Ischemic Heart Disease	54	88
Valvular Heart Disease	71	67
Vascular Medicine	68	42

Histogram

The histogram shows the distribution of mean scores for all NPs and PA in all institutions that participated in the 2023 CCKE NPPA. The overall mean percent correct score of all institution NPs and PAs was 62%. Your institution's mean percent correct score was 64%.
